Applicant Signature \_\_\_\_\_ Printed Name \_\_\_\_\_

#### Licensed Plumber Information

Certificate of Compliance with Prohibition on Use of Specified Materials in Connections to Municipal Utility District Water Systems

I, a duly licensed plumber in the State of Texas responsible for the installation of interior and exterior waterlines for the above address, certify that I understand and have complied with the District's Construction Standards for Water Service in the District's Rate Order. Specifically, each and every pipe and pipe fitting used for the improvement contains less than 8.0% lead. Further, any and all solder or flux used in the improvement contains less than 0.2% lead. The only acceptable materials for installation or construction of waterlines shall be polyvinyl chloride (PVC) copper. If new waterlines are installed that do not conform to the District's standards, the district will not be liable for any damage that is caused by or related to the nonconforming pipes. I am aware that there are significant penalties for false certification, including the possibility of fine(s).
